

European Wire Rope Electric Hoist

◆ Basic Parameter:

Lifting weight: 0.5T-16T

Hoisting high: 6m-30m

Hoisting speed: 8/0.8, 3.5/0.35 m/min

Travel speed: 20 m/min

Working class: M4-M5

Power source: 380V 50hz 3P or customized

It employs motor of hoisting mechanism and reducer imported from Germany. The integrated and compact design of hoisting motor, reducer, reel and limit switch saves space for the user. Modular design increases the reliability of mechanism meanwhile reduces the time and cost for maintaining.

It has more and faster hoist speed and various pulley ratio which can be selected. The standard traveling mechanism of trolley is controlled by converter, with speed of 20m/min, which makes a little swing and accurate position if hoisting items while trolley traveling as well as lifts precision and valuable items reliably.
